SUPPLEMENTAL DETAILED ACTION

1. This office action is in response to the amendment filed on September 20, 2004, in which claims 1-3, 6-15, 17-21, 24-33 and 35-45 are presented for further examination.

Response to Arguments

2. Applicant's arguments filed on September 20, 2004, with respect to the rejection(s) of claim(s) 1-3, 6-15, 17-21, 24-33 and 35-43 under 35 U.S.C 103 have been fully considered and are persuasive. Therefore, the rejection has been withdrawn.

Information Disclosure Statement

3. The information disclosure statement (IDS) filed on January 24, 2005 and February 14, 2005 complies with the provisions of M.P.E.P. 609. It has been placed in the application file. The information referred therein has been considered as to the merit.

EXAMINER'S AMENDMENT

4. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Stephen J. Manetta (Reg. No 40,426) on January 21, 2005.

The application has been amended as follows:

Please cancel claims 44 and 45 without prejudice.

Replace claim 18 with

18. A distributed client/server database system comprising:
a server including said automatic work standard setting system; and a plurality of clients
each having said setting unit of claim 1

Allowable Subject Matter

5. Claims 1-3, 6-15, 17-21, 24-33 and 35-43 are allowable in light of the Applicant's arguments and in light of the prior art made of record (See PTO. 892 and 1449).

Reason for Indicating Allowable Subject Matter

6. The following is an examiner's Statement of Reasons for Allowance:

The present application has been thoroughly reviewed. Upon extensive and exhaustive searches of various databases (see search notes in case jacket), the examiner respectfully submits that the claimed feature "a setting unit adapted to, for each of target work standards to which manhours are to be given, match an expression of target work standard with the standard expressions of the work standards in said standard manhour database and set a link to a graphic file corresponding to a matching work standard and a standard manhour, as a manhour of the target work standard, corresponding to the matching work standard in said database, wherein said setting unit preferentially executes a search based on complete matching between the expression of the target work standard and the standard expression of the work standard in said standard manhour database and a search based on partial matching for the target work standard for which the search

based on complete matching to the standard expression of the work standard in said standard manhour database fails; and “a visualizing unit adapted to download directories of the downloadable work standards from the external database and display the directories and a selection unit adapted to select an arbitrary one of the displayed directories thereby selecting the target work standard to which the manhour is to be given, wherein said visualizing unit downloads upper directories to said automatic work standard setting system together with the directories of the downloadable work standards and displays the downloaded work standard directories and upper directories together” in combination with all other limitations of the dependent and independent claims would not be found anticipated or obvious over the prior art made of record (see PTO-892, 1449). Therefore, the pending claims 1-3, 6-15, 17-21, 24-33 and 35-43 are hereby allowed.

7. Since allowable subject matter has been indicated, applicant is encouraged to submit formal drawings in response to this Office action. The early submission of formal drawings will permit the Office to review the drawings for acceptability and to resolve any informalities remaining therein before the application is passed to issue. This will avoid possible delays in the issue process.

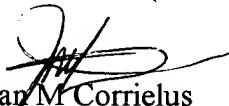

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance”.

Conclusion

8. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jean M Corrielus whose telephone number is (571) 272-4032. The examiner can normally be reached on 10 hours shift.
